ADDING YOUR SPECIAL DATES

Method One:

Locate the '**Events**' Icon in the menu bar on the left of our Calendar Creator. Click on this and you will see the 'Add Events' button.

When you click on the 'Add Events' button you will see a quick view calendar where you can pick the date you are interested in. Use the forward and back arrows to find the date you are interested in. Click on the date cell that you wish to add your special information.

Another pop up window will appear and you can enter the text you would like to see in the calendar cell for this date and click the green tick to confirm.

Add a photo to this cell if you wish by clicking 'Add Picture' to select images from your computer.

We also have some specially prepared Calendar Event Icons you could use in our **Calendars** section on our website. To use these open the images on your computer. Save them in your 'Pictures' Folder (or they will save as default to your 'Downloads' Folder). These can then be uploaded.

Once you have completed this you must click on the green '*Done*' button and then '*Close*' on the previous window if you do not wish to enter any further dates.
